[Text] According to information received in our newsdesk this afternoon, five people have been killed and another two injured following another terrorist attack along National Road No 1. Last Monday, a group of armed bandits attacked a convoy of vehicles near Chimonzo village, about 40 km to the south Xai-Xai in Gaza Province.

According to Paulo Xavier, a youth who survived the incident, the armed bandits also burned six trucks carrying foodstuffs. The young man also said that earlier the bandits had carried out another attack on (?Poane) village, where the criminals kidnapped many peasants to use them to carry the goods that they would later loot along the road.
