

Mozambique claims South Africa "preparing new attacks" Maputo radio, citing a statement issued in Pretoria on 17th December by the South African security forces which claimed that thousands of rounds of ammunition seized on the border with Swaziland had come from Mozambique, has said that South Africa is "preparing new attacks against Mozambique". The radio said that only days before President Samora Machel's plane crash the South African Defence Minister made threats against Mozambique following a land-mine blast close to the border with Swaziland. On 18th December, Maputo radio reported that two US journalists had revealed to the 'Herald', Harare, that Mozambicans who had fled to South Africa, because of "armed bandit" activities in Mozambique, were being forced by the South African government to join the Mozambique National Resistance. 19 DEZ 1986
