## **visit 'a success'**

BD 20/2/95

PIETERSBURG — Freedom Front leader Gen Constand Viljoen said on Saturday the Gauteng and Free State agricultural delegation to Mozambique, which he had headed at President Nelson Mandela's request, was an interstate success.

From his Eastern Transvaal farm, Viljoen said the visit was to investigate the viability of settling SA farmers in Mozambique to aid the re-establishment and rehabilitation of the country's agriculture.

The delegation held negotiations with Mozambique's President Joaquim Chissano and other high-ranking government officials.

"President Chissano agreed on our proposed plan of co-operation on all levels and expressed his optimism. We also agreed on the establishment of a joint working group which will determine the detail of the project," said Viljoen.

Viljoen said he would present his findings and the outcome of negotiations to government next week.

Transvaal Agricultural Union president Dries Bruwer said the negotiations had been of "unbelievable worth for both countries".
