

Anti-sabotage measures in Mozambique's Manica Province (Text) The Manica Provincial Administration held an extraordinary meeting yesterday to study ways of preventing sabotage against economic and social targets. The meeting also analysed the criminal activities of the armed gangs which are financed and supported by the South African racist regime. The measures taken at the meeting included a call on the Government and political structures to organize the workers in particular and the population in general to defend our revolutionary achievements, particularly the vital economic and social sectors. Closing the extraordinary session of the Manica Provincial Administration, Governor Manuel Antonio said that the gangs armed by imperialism would be defeated by the Mozambican people as were colonialism and attacks from Rhodesia.
