

Mozambique: government forces recapture Maputo hamlets occupied in 1987 (Text) FPLM infantry units, in collaboration with the air force, recaptured two localities in Maputo province between 1st and 15th April. These places had been under armed bandit occupation since 1987. A senior military source reports that those places are the Panjane administrative post, 30 km from the town of Magude, and Envinhe [phonetic], also in Magude district. The source added that during the operations the Mozambican armed forces freed people living under the yoke of the armed bandits and captured an assortment of war materiel. 1989
