[Text] Siegfried Wittenbeck, GDR deputy justice minister, arrived in Maputo this afternoon.

The GDR official said on arrival at Maputo International Airport that he will work within the framework of the bilateral cooperation accord during his visit.

[Begin Wittenbeck recording in German, with passage-by-passage translation into Portuguese] We believe that, on the whole, (?the work) has been very good. Both sides will need more experience. There have been a number of practical problems that have arisen from specific cases. We will have enough time to debate these issues to find solutions (?agreeable) to the two sides.

However, in the final analysis, I would like to say that the accord has already borne good fruit. [end recording]
