# ***SA prepares to attack Maputo***

**HAVANA, Sunday..**

**SOUTH** Africa is about to attack neighbouring Mozambique, Cuban President Fidel Castro charged

here yesterday.

He appealed to the world's non-aligned bloc of countries, of which he is chairman, to act urgently to prevent it.

He said there was a build-up of South African troops on the border between the two countries near the town of Ressano Garcia, only 120

km from the Mozambican capital of Maputo.

They had assembled, he said, in response to an alleged attack by Mozambican forces on the nearby South African border town of Komati Poort.
