

S Africa denies providing MNR with military supplies (ME/8340/B/4 - Text) The Defence Force in Pretoria has denied a report by a foreign news agency that South Africa is supplying the Renamo movement in Mozambique with war supplies. A Defence Force spokesman says South Africa's stand on Mozambique and Renamo had been explained at the highest level numerous times. This had not changed. The report, quoting American and Mozambican officials, says the South African war supplies to Renamo are for an attack on the so-called Beira corridor.
