**ANC Secretary-General briefed by President Chissano on visit to Mozambique by President de Klerk (ME/0654 B/1 - Text)** ANC Secretary-General Alfred Nzo, who ended his visit to Mozambique today [6th January], has been speaking about his meeting with President Chissano, Mr Nzo said he had been briefed by President Chissano on the latter's talks with President F.W. de Klerk in December. Mr Chissano told Mr Nzo that the meeting with Mr de Klerk had been mainly concerned with bilateral matters, but there had also been some discussions about the situation inside South Africa, looking into the future for possible negotiations. Mr Nzo said he thought that President Chissano and the Mozambican authorities could play a positive role in the unfolding situation in South Africa. He said Mozambique could, for example, help put diplomatic pressure on Pretoria to bring it to genuine negotiations. The ANC, said Mr Nzo, had always depended on its allies in common struggle, and Mr Chissano had assured him that he would continue to support the South African people's struggle.
